Applicant: Jeffrey A. Trogolo et. al.

Serial No. 10/032,372 : Group Art Unit: 1616

Filed: 21 December 2001 : Examiner: Choi, Frank I.

For: ENCAPSULATED INORGANIC ANTIMICROBIAL ADDITIVE FOR CONTROLLED RELEASE

CERTIFICATE OF MAILING

I hereby certify that this document and the herein referenced Form PTO-SB/08 are being deposited with the US Postal Service on this the 15th day of **November 2005** with sufficient postage as First Class/Priority Mail in an envelope addressed to the Commissioner for Patents, P.O. Box 1450, Alexandria, VA22313-1450 under the provisions of 37 CFR 1.8.

Edward K. Welch II

SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

COMMISSIONER FOR PATENTS
P.O. Box 1450
Alexandria. VA 22313-1450

Dear Sir:

Pursuant to 37 C.F.R. §§1.51(b), 1.56, 1.97 and 1.98, Applicants herewith draw the Patent Office's attention to the documents that are listed on the attached Form PTO/SB/08A.

Applicants respectfully request that each of these documents be considered, made of record herein, listed on a "Notice of References Cited" to be issued in this application and printed on any patent that may issue from this application. Applicants also request that a copy of the attached Form PTO/SB/08A, initialed by the Examiner, be returned to Applicants' attorney together with the next communication indicating that these documents have in fact been considered.

Of the documents listed on the attached Form PTO/SB/08A, the first three United States documents have been cited in the last Office Action issued with respect to the co-pending companion application no 11/032,370. Though the Patent Examiner in that case believed these pertinent, they were not relied upon in the Office Action. The remaining US, but for Shinck et. al., and all the foreign patent documents all pertain to powder coating compositions and methods. Typically these materials are thermosetting materials which cure or cross-link upon application to a substrate and/or exposure to thermosetting conditions. Such materials also typically include any number of additional ingredients needed for cure, environmental stability, etc. They are not believed relevant to the present claims and certainly not to the polymer compositions incorporating the antimicrobial additives of the present application. The final document, Shink et. al. was also cited and relied upon in the last Office Action of the aforementioned companion application. It is not believed relevant to the patentability of the present invention.

Copies or abstracts of each of the listed foreign documents in enclosed.

This Supplemental Information Disclosure Statement is being filed pursuant to 37 CFR 1.97(c). Attached hereto is a Credit Card Authorization in the amount of $180.00 (37 CFR 1.17(p)). No representation is made or intended that a prior art search has been made or that no better art than the listed is available.

Respectfully Submitted
